

01
PROFILE

AI-native product and interaction designer with a 6-year industrial design foundation from **Pratt** and a service design master's from **SCAD**. I use **user-centered design** and rapid prototyping to turn complex, consumer-facing problems into intuitive, end-to-end product experiences. I design and build with generative AI tools, vibecoding working prototypes instead of stopping at mockups.

02
PROJECTS

Selected, 2024–2026

Nuzzle 2025

Owned **end-to-end interaction and visual design** for a companion app targeting the first 30 days after adoption, the window that accounts for half of all shelter returns. Reframed the cause as an expectation gap and designed proactively, shipping a **functional prototype** with a just-in-time 30-day support flow and a staff-facing view flagging high-risk households.

Moonlit Garden 2026 · In progress

Self-directed AI product. The **78 illustrated cards are generated in code from one shared component library**, a system I built after image models could not hold a consistent spec across a set. Built in **Next.js** and **TypeScript** with AI in the loop, including the **motion system across the app in GSAP and CSS**.

Eau de Toi 2025

Reimagined the **in-store fragrance experience**, replacing shelf overwhelm with personality-based scent discovery through user-centered research and iterative prototyping.

SKYA 2024

Designed the **resident-facing product** (user flows, interface, 3-tap returns) for an autonomous last-mile delivery network, reframing last-mile as shared infrastructure. Led the pivot from B2B2C to B2B after user testing, pairing the product with a model projected at **\$5.14M first-year revenue**.

03
EXPERIENCE

Service Designer · SCADpro × FINRA Jun–Aug 2025 · Savannah

- ◆ One of the service designers on a **19-person cross-functional team** delivering four workstreams for FINRA, a major U.S. financial regulator: brand audit, digital experience strategy, asset library, and internal communications toolkit
- ◆ Contributed to **brand and identity audit research** across three audience groups, identifying structural gaps in the existing brand system spanning digital, print, and internal communications touchpoints
- ◆ Findings centred on **usability and accessibility** rather than visual identity: compliance-heavy language, a fragmented digital experience, and gaps for multilingual and older users

Industrial Design Intern · NANOV Display Inc. Aug–Oct 2023 · New York

- ◆ Modeled and iterated **outdoor kiosk designs in SolidWorks**, working through hardware and ergonomic tradeoffs with the engineering team
- ◆ Built **physical prototypes** that surfaced fit and manufacturing issues before production, cutting material waste in the build cycle

Leasing Agent · Acre NY Realty Sep 2023–Aug 2024 · New York

- ◆ Closed **15 deals within the first 3 months** as a new agent, managing end-to-end client service delivery in high-stakes leasing operations
- ◆ Earned **“Rookie Rising Star”** award for stakeholder management, serving as primary liaison between landlords and clients to negotiate terms and resolve operational issues

04
SKILLS

TOOLS

Design

Figma, Framer, Adobe CC (Ps, Ai, Id, Pr)

AI & Code

Claude Code, Codex, Cursor

EXPERTISE

Product & Interaction Design

UX/UI Design, Interaction Design, User Flows, Wireframing, Rapid Prototyping, Design Systems, Component Libraries, User-Centered Design

AI Workflows

AI-augmented prototyping, prompt engineering, end-to-end generative workflows (image, video, voice)

Strategic Design

Service Blueprints, Journey Mapping, Ecosystem Mapping, Systems Thinking

Research

Ethnography, Usability Testing, Stakeholder Interviews, Competitive Audits

05
EDUCATION

SCAD

M.A. in Service Design

2024–2025

Pratt Institute

B.I.D. Industrial Design

2017–2023 · President’s List

Certification · Lextant, Design Research & Insight Translation™ (2025)

06
AWARDS

IDEA 2026 · International Design Excellence Awards

Finalist, Student category · Nuzzle

Indigo Design Awards 2026

Silver, UX Interface & Navigation · Silver, Interaction Design for Social Change · Bronze, Interactive Design

International Design Awards (IDA) 2025

Honorable Mention
