

# Aijia Fang

AI-Native Product Designer

Santa Clara, CA · hahaijarah@gmail.com · linkedin.com/in/aijia-fang · hahaijia.com · +1 917-330-8791

## SKILLS

### TOOLS

**Design**  
Figma, Framer, Adobe CC (Ps, Ai, Id, Pr)

**AI & Code**  
Claude Code, Codex, Cursor

### EXPERTISE

**AI Workflows**  
AI-augmented prototyping, prompt engineering, end-to-end generative workflows (image, video, voice)

**Product & Interaction Design**  
Interaction Design, UX/UI Design, Visual Design, User Flows, Wireframing, Mockups, Rapid Prototyping & Experimentation, Design Systems, User-Centered Design

**Strategic Design**  
Service Blueprints, Journey Mapping, Ecosystem Mapping, Systems Thinking

**Research**  
Ethnography, Usability Testing, Stakeholder Interviews, Competitive Audits

## EDUCATION

**Trine University**  
M.B.A.  
Mar 2026 – Present

**SCAD**  
M.A. in Service Design  
2024–2025

**Pratt Institute**  
B.I.D. Industrial Design  
2017–2023 · President's List

## AWARDS

**Indigo Design Awards 2026**  
Silver in UX, Interface & Navigation; Silver in Interaction Design for Social Change; Bronze in Interactive Design

**International Design Awards (IDA) 2025**  
Honorable Mention

## LANGUAGES

**English**  
Fluent

**Mandarin**  
Native

## ABOUT

AI-native product and interaction designer with a 6-year industrial design foundation from Pratt and a service design master's from SCAD. I use **user-centered design** and rapid prototyping to turn complex, consumer-facing problems into intuitive, end-to-end product experiences. I design and build with generative AI tools, vibecoding working prototypes instead of stopping at mockups.

## SELECTED PROJECTS

**Nuzzle** 2025  
Owned **end-to-end interaction and visual design** for a companion app tackling a 50% cat-return rate in the first 30 days. Reframed the cause as an expectation gap and designed proactively, shipping a functional prototype with a just-in-time 30-day support flow.

**Eau de Toi** 2025  
Reimagined the **in-store fragrance experience** to replace shelf overwhelm with personality-based scent discovery, guided by user-centered research and iterative prototyping and experimentation. Customers step into an immersive booth where mood and visual cues guide them to a fragrance they trust.

**SKYA** 2024  
Designed the **resident-facing product** (user flows, interface, 3-tap returns) for an autonomous last-mile delivery network, reframing last-mile as shared infrastructure. Led the pivot from B2B2C to B2B after user testing, pairing the product with a business model projected at \$5.14M first-year revenue.

## EXPERIENCE

**Service Designer · SCADpro × FINRA** Jun – Aug 2025 · Savannah

- Designed **brand audit research** for FINRA, a major U.S. financial regulator, identifying structural gaps in the existing brand system across digital, print, and internal communications touchpoints
- Developed a **strategic brand framework**, including brand archetype, DNA, and personality system, that translated research insights into a coherent positioning anchored on Trust, Innovation, and Clarity
- Collaborated within a **19-person cross-functional team** across research, strategy, and design to deliver four integrated workstreams (brand audit, digital experience strategy, asset library, internal communications toolkit)

**Industrial Design Intern · NANOV Display Inc.** Aug – Oct 2023 · New York

- Engineered **production-ready outdoor kiosks** for commercial clients, resolving hardware-ergonomic tradeoffs that defined final manufacturing specs
- Spearheaded physical prototyping, surfacing critical manufacturing flaws before production and cutting material waste in the build cycle

**Leasing Agent · Acre NY Realty** Sep 2023 – Aug 2024 · New York

- Closed **15 deals within the first 3 months** as a new agent, managing end-to-end client service delivery in high-stakes leasing operations
- Earned **“Rookie Rising Star”** award for stakeholder management, serving as primary liaison between landlords and clients to negotiate terms and resolve operational issues
